BASS G15

Bass reflex passive subwoofer
European transducer

Presentation:

The BASS series offers a professional passive subwoofers range becoming the perfect choice for sound reinforcement challenges demanding high SPL and natural-sounding bass response designed to enhance the ultra-low bass of an existing PA system. Both models are on bass reflex configuration and constructed of 18mm birch plywood featuring 15" loudspeakers with 4" voice coil delivering a nominal power handling of 700W rms at 8 Ohms each giving low-ranging yet clearly defined bass response and rendering impulses with great accuracy in a very compact and robust enclosure. Punch and bass sensation do not have to be incompatible factors and this BASS series truly is a great example

Features:

- Bass reflex subwoofer
- 15" LF European transducer
- Dual Neutrik NL4 connectors
- Optimized for high SPL output
- Made for an impact bass
- Recesses on the top to facilitate the stacking
- Rugged and durable 18mm birch plywood
- Powder coated custom perforated steel grille

BASS G15

Bass reflex passive subwoofer
European transducer

Technical specifications:

Acoustical

Type	Compact passive subwoofer
Configuration	Bass reflex
Power handling capacity	700W rms
LOW/MID freq.	1x 15" LF European transducer
Frequency response	50Hz - 180Hz
Nominal Impedance	8 Ohm
SPL (1W/1kHz)	127dB @ 1m
Connectors	2x NL4 connectors

Physical

Cabinet	18mm birch plywood
Grille	Custom perforated metal grille w/ acoustic foam
Color	Black or white textured powder coating
Hardware/Rigging	4 rubber feet, 2 side handles Ø35mm pole socket
Dimensions	480x480x555mm
Weight	32Kg

Dimensions:

BASS
G15 // G15A
