

Product Detail Page

IP65

PSIP-150/12

Number: 27.3410

LED Switch-mode PSUs

For indoors and outdoors (IP65).

- Especially for LED installations with high power requirements
- Low-noise according to EMC standard EN 61000-3-2 class C
- Active PFC filter
- Fine adjustment of output current and output voltage
- Protected against short circuit, overload, overheating and overvoltage
- Connection via bare cable ends
- Robust metal housing with mounting flange

Technical Facts

Input voltage	100-240V~/50Hz/60Hz
Output voltage	12V = , adjustable 9-13V =
Charging/output current	11A, adjustable 5.5-11A
Charging time	-
Trickle charge	-
Reactivation	-
Admiss. ambient temp.	0-40 °C
Dimensions	223x68x39mm
Weight	986g
